POMPONS, ALSO KNOWN AS BOUQUET DAHLIAS

Pompons are very small dahlias, lovely masses of bloom from late June till frost. As cut flowers they have no equal, lasting well, and adaptable to any color scheme. Arrangements of mixed colors are also delightful. 1 to 2 inch blooms. Grow at least a few, they will bring good cheer into your home.

PURE LOVE — A fine lavender	.25			
POSY GEM — Blended yellow and orange	.25			

Know someone who's feeling blue,
Maybe sick and worried, too?
Why not try to chase the sadness?
You can give a bit of gladness
With a little bunch of posies grown by you.

PLANTING

Plant dahlias May 1st to June 15th, 2 to 3 feet apart. Lay tuber horizontally, sprout up, in hole 6 inches deep. (Never stand tuber on end.) Cover with 3 inches of soil; later, as the plant grows, fill in the remaining space. If ground is poor, dig deeper, and put some rich top soil in bottom of hole, under tuber. For large blooms, allow but one to a branch, removing extra buds while very small. Pompons may be planted closer together and need no disbudding. Remove all fading flowers. Thus cared for they bloom freely until frost.

FREE GOODS

To each order of dahlia tubers amounting to \$1.00, a complimentary dahlia, my selection is added. If your order amounts to \$3.00, you may also select an extra 50c value. This does not apply to collections offered.
